

Jacob's Well Natural Area Field Trip Interest Application

Note to applicants: Hays County Parks staff are able to organize free field trips on a case-by-case basis, depending on available resources. Any school or education organization is welcome to apply; however, due to space and personnel restrictions, we can only offer customized, TEKS-aligned activities to groups of 100 or less. For larger groups, park staff will set up a variety of outdoor games and activities for participants to enjoy at their own pace. The maximum group size we can accommodate is 180.

Please specify your preferences in the form below and e-mail to: quincy.kennedy@co.hays.tx.us.

Please note that educational field trips do not include swimming. Groups wishing to swim will need to make a separate swimming reservation on the Hays County Parks website: <http://www.co.hays.tx.us/jwna.aspx>
